# Welcome to Automechanika, the world's most successful automotive trade show

Now is the time to book 7-9 June 2016 into your business calendar as the world's leading exhibition for the automotive supply chain and aftermarket comes to the UK for the very first time.

With over 550 domestic and international exhibitors attending at the NEC, Automechanika Birmingham guarantees visitors unrivalled access to the very latest products and services available to the automotive sector, as well as an insight into its future.

As a visitor, you will benefit from a comprehensive seminar programme that will address key issues and developments including the changing car market, advanced IT and vehicle connectivity, future drives, staff skills, training and business best practice.

Join thousands of market-leading companies from across the automotive sector as we bring together the very best of the aftermarket and supply chain to celebrate and support the buoyant UK industry.

Analysts predict that the UK will be producing more than 2 million vehicles per year by 2020

The largest number of exhibitors at an Automechanika launch event outside of Frankfurt

"This is a great opportunity for our UK automotive suppliers and buyers to participate in the largest automotive focused event in the UK, the like of which we haven't seen in the UK for many years. We look forward to celebrating and building upon this success with our current suppliers and meeting new suppliers at Automechanika Birmingham this year."

**Jaguar Land Rover**

# Key reasons to attend

- » **Visit** more than 550 international and domestic exhibitors by meeting new and existing suppliers as well as sourcing the very latest automotive products and services available to your business
- » **Discover** state-of-the-art innovations from the UK's most forward thinking technology companies
- » **Learn** about the very latest trends and developments from across the industry in the Keynote Seminar Theatre and interactive event features
- » **Network** with more than 10,000 industry professionals, forge long-lasting business relationships and exchange ideas on the future and the potential challenges ahead
- » **Enhance** your technical knowledge and skills by attending sessions in the aftermarket and supply chain seminar theatres

## Automechanika Birmingham The numbers:

550 exhibitors  
from 30 countries

1,000s of products  
and services on  
display, from over  
150 product categories

50 free seminar  
sessions

The UK car  
population is the third  
highest in Europe with  
37 million registered  
vehicles

"It is fantastic that Automechanika will be in the UK, in Birmingham. As Halfords Autocentres is a full service garage group looking after over 1 million private and fleet vehicles, there is a lot we are looking forward to. Not least the opportunity to spend time with so many of our suppliers and supporting businesses – we hope to meet old friends, and new."

Halfords

**halfords**

# Over 550 exhibitors across 3 halls

Exhibitor categories:

- » **Parts & Components**
- » **Electronics & Systems**
- » **Repair & Maintenance**
- » **Accessories & Customisation**
- » **Car Wash, Care & Reconditioning**
- » **Management & Digital Solutions**

More than 550 leading automotive companies will be exhibiting the very latest products and services available to the market.

# Future-proof your industry

As well as having the opportunity to explore the products and services of more than 550 market leading exhibitors, visitors can also benefit from our extensive educational seminar programme that will bring value to your business.

Delivered by leading industry experts across 3 theatres, the Seminar Programme will present the latest industry developments and showcase technical expertise to help you drive your business forward. The full programme will be released in the coming weeks.

In a recent survey of prospective visitors, an overwhelming 83% stated that they would attend Automechanika Birmingham

## Keynote presentations

A series of presentations, case studies and panel discussions to highlight key industry developments and issues that will impact the automotive sector in the UK. Topics will address:

- » The changing car market & industry forecasts – understanding global trends affecting the industry
- » Future drives
- » Skills & training in the industry
- » Connectivity & advanced IT in vehicles
- » Securing business success (legislation, role of government, trade & export)
- » And much more...

## Supply chain technical seminars

A series of technical seminars and educational sessions to address the specific needs of the UK supply chain sector. Topics will address:

- » High-value manufacturing
- » Lightweight technologies, metals & composites
- » Future drives: e-mobility, battery technology, e-fuelling & alternative drives
- » Low carbon systems & electrification
- » Business seminars for the supply chain (intellectual property, business funding, apprenticeships)
- » And much more...

## Aftermarket technical seminars

A programme of technical seminars and educational sessions covering topical issues and developments for the UK's aftermarket sector. Topics will include:

- » Updates on the MOT, qualifications & certification
- » The emergence of hybrid & electric vehicles
- » The changing car parc & keeping workshops up to date with both current & future vehicles
- » Technology & the retail sector
- » Staff skills, training & retention
- » Business seminars for the aftermarket (managing distribution, insurance, warranties)
- » And much more...

# Bringing the industry together

Thousands of industry peers attending from the whole spectrum of supply chain and aftermarket.

Did you know that the average British built car now contains 41% local content compared to just 36% in 2011?

## Supply Chain

Senior decision makers across purchasing, product development, R&D, sales and marketing, engineering, HR and logistics.

- » Vehicle manufacturers
- » Tier 1 manufacturers
- » Tier 2 manufacturers
- » Upstream manufacturers

## Aftermarket

Business owners, senior managers and technicians across all areas of the aftermarket.

- » Motor factors/distributors of vehicle parts & accessories
- » Workshop/MOT centres
- » Retailers
- » Fleet operators
- » Breakdown recovery services
- » Workshop tool & equipment suppliers
- » Vehicle leasing companies
- » Vehicle preparation & valeting
- » Vehicle cleaning operations
- » Dealerships
- » Vehicle restoration companies

"The arrival of Automechanika in Birmingham has created a huge buzz of excitement across the whole of the aftermarket and it's no surprise it's a sell-out. It's a fantastic showcase for the industry; one that will provide an excellent opportunity for all those exhibiting to welcome valued customers and key supply partners, while also forging new friendships. As one of the leading autoparts distributors in the UK we just had to be there."

**The Parts Alliance**

"Automechanika Birmingham highlights the continued resurgence of the UK on the global automotive map. With a proud heritage of Vauxhall manufacturing in the UK, we are delighted to see a major event being organised in General Motors' fourth largest market, showcasing the best the industry has to offer."

**Vauxhall/GM**

“Nissan fully supports the arrival of Automechanika Birmingham in June 2016 – an event dedicated to showcasing the UK’s automotive capabilities. With the recent announcement of the next generation Nissan Juke, this will be a good opportunity to discuss potential new partnerships and reinforce existing relationships.”
