DYNOMEC

Locking Wheel Nut Removal Kit

Lost Key? Broken Key? Never had the Key?

This simple-to-use kit is capable of removing virtually all wheel locknuts on the market to date, with no damage to the wheel due to the protective steel shroud. It's so effective, it has become the tool of choice for the AA and RAC.

The tool does not rely on strength to work effectively, making it an ideal solution for anybody looking to remove locknuts without the key.

If you would like to see a full demonstration of the Locking Wheelnut Remover in action, visit: www.dynomec.co.uk/video.html

EXHAUST REPAIR CLAMPS

ONLY
£7.95
EACH

Our exhaust repair clamps are ideal for mending broken and rusty exhausts. Available in a range of sizes to fit all exhausts, it's simple to install and expands to the exact diameter needed!

ORDER CODE	DESCRIPTION
ICLAMP2633	To fit exhaust diameter: 26 - 33mm
ICLAMP3343	To fit exhaust diameter: 33 - 43mm
ICLAMP4351	To fit exhaust diameter: 42 - 51mm
ICLAMP5157	To fit exhaust diameter: 51 - 57mm
ICLAMP5770	To fit exhaust diameter: 27 - 70mm

Step 1

Remove M6 bolt and slide the tube inside the exhaust until the tube is almost flush with the exhaust pipe.

Step 2

Using a small screwdriver, slide the tube across into the adjoining pipe using the zig-zag pattern.

Step 3

Replace the M6 bolt using a 10mm socket and tighten the bolt to expand the tube sufficiently to hold the two pieces together.

Platinum TC3301 Tyre Changer

The Platinum TC3301 Tyre Changer affords an ergonomic design coupled with high quality, durable European manufactured components, to produce what we believe to be our finest semi-automatic tyre changing machine.

The Platinum TC3301 Tyre Changer includes the following as standard:

- 2 x Plastic inserts for fitting head
- 4 x Plastic Jaw protection covers
- 1 x Plastic bead breaker
- 1 x Tyre lever bar
- 1 x Air inflation gun
- 1 x Filter lubrication regulator
- 1 x Soap reservoir

Tyre Changer Features:

- Aluminium alloy air tank with 2500Kg pressure
- Standard aluminium alloy 80mm small tank, increase clamp power to 106Kg
- Chromium alloy assembling head
- Zinc-base alloy gear box
- LCD digital inflator, High-pressure explosion-proof air-oil separator
- American import GATES transmission belt
- Aluminium five way valve, swing air valve
- Enforced post design, stability increase 1.5 times
- German import reversing switch

Tyre Changer Specification:

- Rim material steel, AL, Alloy
- Max. wheel diameter 41"
- Max. wheel width 14"
- Inter clamp 13"-23"
- Clamp 11"-21"
- Wheel clamping size can be reduced to suit motorcycle and ATV tyre with the use of our optional adapters to, for Motorcycle: 14"-23" for ATV :8"-17"
- Power supply 110V/220V/380V 1Ph/3Ph 50/60Hz
- Air supply 8-10Bar
- Motor power 0.75KW-1.1KW

Centreless Wheel Adaptor

Platinum WB6605 Wheel Balancer

The Platinum WB6605 is the first in our range of premium level wheel balancers. This unit is packed with all the usual features you expect from any other top of the range machines.

The WB6605 is a semi-automatic motorised wheel balancer utilising low speed innovation to eliminate the need to use a protective hood, making it an ergonomic solution where space is an issue.

The WB6605 Wheel Balancer also incorporates features such as semi-automatic data input, split weight facility, hidden weight facility and stick on weight placement arm for location accuracy on alloy wheels. The WB6605 wheel balancer is a very robust machine and is more than capable of handling even the most demanding of work loads.

The WB6605 Wheel Balancer comes with the following features as standard:

- Suitable For Luxury Vehicle, SUV, BPV, Light Truck.
- Extend Balance Shaft, Long Measure Ruler.
- Adapt Auto Self-accurate And Auto Self-diagnosis.
- Auto A,D Data Input.
- High Precise Long Shaft For Flat Tire.
- With Static Balance And Dynamic Balance Mode.
- Optional Wheel Cover, Universal Cones And Larger Cones.

Wheel Balancer Specification:

- Max. wheel weight 65Kg/143 lb.
- Max. tire diameter 47".
- Rim diameter 10" - 24".
- Rim width 5" - 14".
- Balancing speed 200rpm.
- Balancing accuracy 1g
- Power supply 110V 60Hz 1PH/230V 50Hz 1PH.
- Measuring time 6-8s.
- Noise level 65dB.

Platinum 4.2Ton Adjustable 2 Post Lift

Over the years the Garage Equipment has seen an increased demand for a 2 Post lift that fits neatly into small garage workshops and existing predefined workspaces. The research and development boffins have been hard at work and we are very proud to announce the world's very first adjustable 2 Post Lift.

OUR PRICE
£1950
Exc VAT and Installation

FROM ONLY £10.00
A WEEK

During the 80s and 90s, 2-Post lift manufacturers produced 2-Post car lifts that were much narrower than today's equivalents. This poses a problem for garages that are now seeking to replace these lifts as the modern 2-Post lifts are much wider and as such will not fit into the allocated work space.

This revolutionary adjustable 2-Post car lift can be set, during installation, to fit perfectly into any work space ranging from 3.2 metres (3200mm) to 2.8 metres (2800mm.) Completely eradicating the need to re-assess your garage's overall layout, which would no doubt be a time consuming and costly exercise.

The brand new patented Platinum 4.2 Ton 2-Post lift can be adjusted in increments of 100mm without the need to replace any of the components, simply set the lift to the required width, bolt it down and your done.

4 TON PAD
£12.99
EACH

5 TON PAD
£14.99
EACH

Order Code: XPRLP4

Order Code: XPRLP5

Here are some examples of 2-Post car lift widths from a range of leading manufacturers:

- Bradbury 2013 - 3.1 meter wide (3100mm)
- Hoffman GT2500 - 3 meters wide (3000mm)
- Techalemit Mk5 - 3 meters wide (3000mm)
- Cascos C2-7 - 2.8 meters/3 meters/3.1 meters
- Stenhoj Major - 3.15 meters (3150mm)
- Istobal 42712 - 3.1 meters (3100mm)
