

TAILORED RISK MANAGEMENT SOLUTIONS

At Bollington, our Risk Management team offers tailored solutions to fit the needs and budget of your company. We have experts in your industry, so are able to provide specific health and safety and risk management guidance regarding the way that you operate your business.

We offer a variety of different types of Risk Management services, dependent upon the size and the requirements of your company. The Silver and Gold packages are our most popular.

SILVER PACKAGE

Running a smaller business, you are likely to need professional, independent guidance on health and safety matters, though you will not necessarily require a full risk management service. To ensure that your business meets with regulatory compliance, we will visit your premises to conduct a thorough assessment, setting in place standards to measure your performance against best practice. This will highlight any issues that need remedial action.

We recommend the Silver Package for those businesses with 10 employees or less.

Package includes:

One-day site visit by an experienced Risk Manager and will include:

- Review of your current Health and Safety arrangements
- Fire Safety review of your workplace including full identification and documentation
- Visual inspection and review of hazards in your workplace
- Review of your current ability to handle a Health and Safety emergency situation
- Evaluate your compliance with legislation and ability to deal with a liability claim.

Following your visit you will receive:

- A Health and Safety policy
- Selection of starter templates
- Full telephone support for advice and guidance in the event of incidents involving the HSE, insurers, or local authority
- Monthly legal and regulatory updates

You will receive a full written report of our findings, which will empower your business to put in place the correct procedures and monitoring systems for the future.

All this for just £750 + VAT per annum

GOLD PACKAGE

The Gold Package is intended for those requiring additional support with the implementation of suggested changes offered in the Silver Package. We offer a 'fully-retained' service, which allows your business to call on Bollington to provide assistance to enable you to meet your legal obligations.

We recommend the Gold Package to those clients with more than 10 employees. This service can be supplemented with further bespoke risk management support that is priced to meet your individual business' needs.

Our Gold Package includes:

Three site visits throughout the year by an experienced Risk Manager and will include:

- Review of your current Health and Safety arrangements
- Fire Safety review of your workplace including full identification and documentation
- Visual inspection and review of hazards in your workplace
- Review of your current ability to handle a Health and Safety emergency situation
- Evaluate your compliance with legislation and ability to deal with a liability claim.
- Support the implementation of suggested procedures with bespoke documentation
- Assistance with a selection of risk assessment paperwork pertinent to your business
- Documentation on a selection of safe systems of work for activities deemed necessary on your site
- An HSE advisory service
- Assistance in the event of a crisis e.g. investigating a serious accident

Following your visit you will receive:

- Full telephone support for advice and guidance in the event of incidents involving the HSE, insurers, or local authority
- Monthly legal and regulatory updates

As well as providing the initial thorough assessment and full written report to review internal and external monitoring systems, you will receive support with implementation of suggested changes.

All this for just £1,850 + VAT per annum

Don't be caught short in managing the risks in your business. You can rely on the expertise and knowledge of Bollington's Risk Management team to help protect your business against incidents, accidents and investigations.
